Idaho Commission for the Blind and Visually Impaired

- Pre ETS - Work Based Learning Experience

Self-Direction Waiver Job Coaching

In May 2021, after annual strategic planning, CSS notified IDVR of our decision to reduce the amount/scope of services we offered to IDVR customers. CSS will specialize in Pre ETS transitional services for high school students and Community Based Work Evaluations. We will accept referrals for other IDVR services on a limited basis, correlated to our staff's ability to work into our schedules so we can serve at the high level of quality that is CSS's standard.

CSS is in the process of developing online training programs to allow customers the option of learning valuable work skills and guidelines for conduct on the job on their own schedule.
